

# What SLHE Offers

Our support group brings families together through volunteer-driven activities designed for students and families. As members, each family contributes by helping with at least one event annually, fostering a community that builds academic excellence and a lifelong passion for learning.

## Family & Community Events

We celebrate together through seasonal gatherings like Valentine's exchanges, a Thanksgiving feast, Easter egg hunts, and holiday parties. Our annual Expo Night and International Showcase highlight what our students have been learning, while Promotion Night and our special senior ceremony honor educational milestones. Community service opportunities and field trips throughout Central Florida provide real-world experiences with group discounts.

## Social Connections

Students build friendships through age-appropriate activities including themed dances for middle and high schoolers, special teen events, and rotating park days across Lake and Orange counties. Parents connect through our many activities and gatherings. Our yearbook team captures these special memories for families to treasure and is available to purchase at the end of each school year.

## Clubs & Special Programs

### Drama Clubs

Separate elementary and middle/high school productions allow students to develop performance skills, with opportunities for acting, stage crew, choreography, and technical roles.

### Audio Visual Club

Monthly meetings + teach photography, video and audio production, media literacy, and event management, culminating in students running technical aspects of drama performances.

### Testing & Resources

We offer annual testing to meet county and Step Up requirements. Membership provides access to our private calendar of events and email forums for support.
